NSW LIBERALS AND NATIONALS TO DELIVER PRACTICAL COST OF LIVING RELIEF FOR FAMILIES

The NSW Liberals and Nationals have a plan to support families, back jobs and get New South Wales back to the top of the pack.

A Sloane Liberal and Nationals Government will deliver practical cost of living relief that puts money back into household budgets and makes life easier for families.

Member for Hawkesbury, Robyn Preston, said they were hearing everyday how difficult it has become to get ahead, under the Minns Labor Government.

“People don’t expect government to solve every problem, but they don’t expect government to make things worse for them,” Ms Preston said.

"Since Labor came to office, taxes have increased by 31 per cent and families have nothing to show for it.”

Under the NSW Liberals and Nationals plan, we will:

- Deliver practical cost of living relief with a $100 car registration rebate and a reduction in the toll cap to $50.
- Put downward pressure on household and business power bills by increasing energy supply, improving energy security and generating more power closer to where it is used, reducing reliance on costly transmission infrastructure.
- Restore the Regional Seniors Travel Card so the most vulnerable members of our communities are not left without the support they deserve.

Leader of the Opposition, Kellie Sloane, said too many families felt they were working harder but going backwards.

"This is why we are focused on practical measures that put money back into household budgets and help families manage the cost of living,” Ms Sloane said.
